## Excerpt:

Hexagon hotend modelled in OpenSCAD from physical measurements. Can be used for designing mounts, fan shrouds etc.

## Description:

Hexagon hotend from <http://www.reprapdiscount.com> modelled in OpenSCAD from physical measurements. I am not the original designer of the hot end so internal construction and dimensions are approximated. Outer dimensions are as good as I can measure with calipers,  
Suggested use is as base for designing mounts, fan shrouds etc.

If you can, please use the online documentation found at <http://www.youmagine.com/designs/hexagon-hotend-visualization> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
